

PERSONAL, SOCIAL AND EMOTIONAL DEVELOPMENT

We will be creating our own class rules to help us learn effectively in our indoor and outdoor learning environments. Circle time will be used to discuss our family relationships and how to be a good friend at school. Links will also be made to our texts in Literacy.

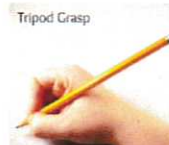

COMMUNICATION AND LANGUAGE

We will share the 'All About Me' bags that we bring in to help us ask and answer questions and learn about our new classmates. We will play a range of games to help develop effective listening skills and concentration.

PHYSICAL DEVELOPMENT

We will be developing our 'superpowers' of running, throwing, catching and balancing by setting up obstacle courses outside. We will also use a range of fine motor skills activities to strengthen our hands and develop an effective pencil grip for drawing and writing.

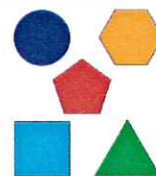

LITERACY

In Literacy, we will be learning to recognise phonemes and graphemes in phonics to help develop our reading and writing skills. We will use story books about families as a starting point for our learning.

Superhero Me
Autumn Term 1

EXPRESSIVE ARTS AND DESIGN

As part of our topic we will use pencils and paint to create pictures of our family and self-portraits. We will act out events from stories used in Literacy and also dance to music which links to these texts.

MATHEMATICS

In Mathematics, we will learn to recognise numerals and count objects to at least 10. We will begin to name and describe 2D shapes and also develop our use of different mathematical vocabulary.

UNDERSTANDING THE WORLD

We will be discussing similarities and differences between our families and how we celebrate occasions. If you have any photos that the children could bring in to talk about that would be fantastic!
