

MATHS

In Maths, we will be following the Maths - No Problem! Scheme of work. The sequence of lessons this term will be as follows:

- Addition and subtraction within 10000
- Multiplication and division
- Further multiplication and division

We will continue to revise place value throughout the half term.

ENGLISH

We will be studying *The Matchbox Diary* by Paul Fleischman and *Poetry* by Michael Rosen and Roger McGough. We will be producing an assortment of work in response to these stories.

In addition, we will be looking at the following areas of grammar:

- Extending Sentences
- Subordinate clauses
 - Word classes
 - Determiners
 - Noun phrases
- Punctuating speech
 - Pronouns

COMPUTING

We will be researching information about living things and the continents using the internet and various other digital resources.

We will learn how to build simple algorithms using a visual programming language in order to manipulate images on screen.

We will also use Excel to present the data recorded during our field studies as part of geography and science.

GEOGRAPHY

We will be learning about a variety of locations around the world. We will learn the names and location of major cities, human and physical features and how to read Ordnance Survey maps, use compasses and create keys.

YEAR 4 CURRICULUM MAP **Around the world in 80 days** **Autumn term 2**

ART & DESIGN

We will be doing observational drawings of various subjects in our local area. We will look at the work of Andy Goldsworthy and create work inspired by his art. We will be creating prints based on traditional African artwork.

PE

This term Year 4 will be creating our own dances and taking part in outdoor adventurous activities.

MUSIC

In music we will be composing music for different purposes. Learning to appreciate and understand a wide range of music from different traditions and composers.

RE

This half term we will be looking at community. We will be visiting St Luke's church to learn about how the church is used, and who goes there.

SCIENCE

This term we will be learning all about living things. We will learn how living things can be grouped and classified. We will recap on what exactly a living thing needs to survive. We will conduct various field studies to see what living things are around the local area and explore the impact humans can have on living things. We will consider how we can keep living things safe, including our own pets as well as the local wildlife. Part of this study will also include looking at habitats, predators and prey. We will also find out about species that were once native to the UK that no longer live here.

FRENCH

In French this half term we will look at parts of the body, asking for French translation, revision of adjectives and zoo animals.

DESIGN TECHNOLOGY

We will be designing and creating our own 3D European landmark, then evaluating them once they are completed. We will learn how to use various tools correctly and safely and how to select the right tool for a given task.
